1. INTRODUCTION

a. Marketplace Name

Rental E-Commerce

b. Overview

Rental E-Commerce is a type of e-commerce system designed to track the availability of rental cars, including their descriptions, conditions, and daily price ranges. It enables users to browse available vehicles, check their specifications, and reserve their selected cars for a specific date and time.

2. PROBLEM STATEMENT & OBJECTIVE

- Develop a fast and responsive website with an engaging UI/UX to attract consumers.
- Ensure ease of use, providing a seamless and intuitive browsing experience.
- Include key information to guide users through the booking process, minimizing any difficulties.
- Display high-quality images of rental cars along with detailed descriptions, including hourly rental rates, car categories, key features, and available colors.
